The dancing wonder – compact, strong and mobile.

Have you been using a mop to clean entrance areas, kitchens or other small shop surfaces? Are you having a problem reaching tricky spots with the equipment you are currently using? Don't worry! You can forget the hassle and start dancing with the Discomatic Samba mini scrubber-dryer. Even in the smallest spaces, you will elegantly glide into curves and reach narrow spots with ease. The first commercial compact class scrubber-dryer has the same design as the larger pro models from Wetrok. And this scrubber-dryer can keep stride in terms of performance. Although compact it delivers unmatched effectiveness and helps increase your productivity.

Advantages of the Discomatic Samba

- Maximum cleaning quality and hygiene
  thanks to a compact professional scrubber-dryer
- Cost and time savings in small, narrow areas
  with top productivity compared to a mop
- Easy handling and servicing of the machine ensure
  efficient and ergonomic work

Easy to handle. With the Discomatic Samba, cleaning is more like dancing. It practically cleans by itself thanks to its extreme ease of handling.

Fits virtually any car. You can take this small cleaning marvel from Wetrok along anywhere. The Discomatic Samba scrubber-dryer usually fits into any car.
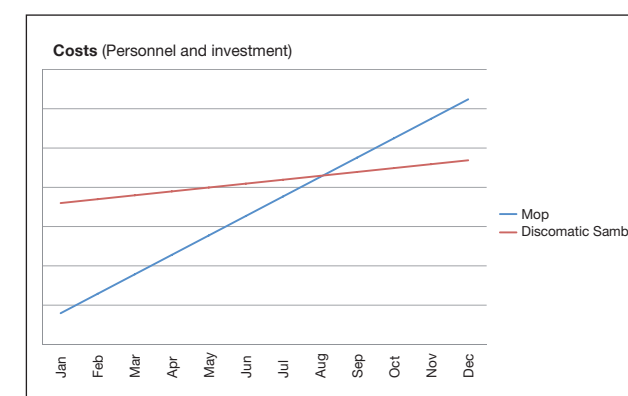

Water that lasts almost an eternity. The fresh water tank holds 15 litres, which lasts a long time and saves time. The dirty water tank can be removed in seconds, enabling you to empty it anywhere.

Strength within provides consistent performance. All components are made from stainless steel, and the solid housing for the brushes is aluminium. Thanks to the clever tank design, the brush pressure remains the same during the entire cleaning process. This means that the result also remains consistent – and you can continue your carefree dancing.

Outshines a mop every time. The Discomatic Samba has the ideal size for narrow spaces and relatively small areas. With its cleaning performance of 1200 sq m per hour, the Discomatic Samba clearly outperforms a mop. You have to keep dipping a mop into the same dirty water, which distributes the dirt across the floor. In contrast, the Discomatic Samba uses fresh water for every centimeter you clean. As well, the floor dries instantaneously, enabling you to clean even during business hours.

Costs (Personnel and investment)

— Mop
— Discomatic Samba

Jan Feb Mar Apr May Jun Jul Aug Sep Oct Nov Dec

Based on:
- Daily cleaning surface of 180 m^2
- 5 days a week
- Depreciation of the machine after 1 year
- Wage costs of CHF 20

Wetrok Discomatic Samba

Technical data	Item no. 50.016	Discomatic Samba
Nominal voltage		24 V DC
Projected surface area performance		1200 m²/h
Working width		380 mm
Suction nozzle width, curved		460 mm
Fresh water tank		15 l
Dirty water tank		23 l
Total nominal power input		557 W
Battery capacity		25 Ah
Battery operating time		max. 1 h
Weight with water, ready for service		77 kg
Max. dimensions (L x B x H)		850 x 500 x 1030 mm
Underclearance		630 mm
Brush pressure		20–28,5 kg
Noise level		71 dB(A)
